SUBJECT INDEX

- Al_2O_3 , scavenging in zirconia ceramics 303
alloy nitride particle size distribution, effect on grain-coarsening in titanium steels 139
alloy segregation on corrosion of Co-Ni magnetic thin films 124
aluminium alloys, creep behaviour in stress change tests 187
- biodegradation of plastics 1
block styrene-butadiene, interpenetrating polymer networks 26
book reviews 79, 158, 233, 306
brittleness of molybdenum at low temperature 161
brown coal milling, wear-resistant materials 59
- ceramics
 fracture toughness
 of electrical insulator porcelain 294
 of TiN-ZrO₂ composites 101
 role of energy absorption in failure of composite armours 174
 toughening mechanisms for 237
 zirconia, scavenging of Al_2O_3 in 303
characterization of metal powders 81
Co-Ni magnetic thin films, alloy segregation on corrosion of 124
coal pulverizing plant, wear-resistant materials in 59
coatings, Zn-Ni, of stainless steel 153
cobalt alloys, alloy segregation on corrosion of Co-Ni magnetic thin films 124
composite laminates, graphite / epoxy, delamination damage in 118
conductive polymers 35
conveyor bend pulley, failure of 64
copper alloys, corrosion behaviour of Cu-Ni-Fe and Cu-Ni-Co copper and Y_2O_3 composites of stainless steel, effects on corrosion 134
corrosion
 monitored by thin layer activation 261
 of Co-Ni magnetic thin films, alloy segregation on 124
 of high-density sintered tungsten alloys 266
 of permanent magnetic alloys 43
 of stainless steel, affected by Y_2O_3 and copper additions 134
cracking, stress corrosion, of low alloy steels 48, 54
creep behaviour in aluminium alloys 187
cross-linked polymers 108
- d.c. conductivity, transitional $\text{YBa}_2\text{Cu}_3\text{O}_{7-\delta}$ 76
deformation
 and weld repair of armour steel 216
 of superplastic alloys, influence of grain-size distribution 279
degradable plastics 1
degradation, environmental, of nylon 6 11
diffraction gratings produced by the Grayson ruling engine 273
- dross
 formation in Zn-Ni galvanization 73
 origin in galvanizing processes 69
- effect
 of alloy nitride particle size distribution in titanium steels 139
 of matrix and sequence stacking on delamination damage in composite laminates 118
 of mechanical load on nylon 6 11
 of silicon on alloy coating of silicon steels 153
electrical insulator porcelain, fracture toughness of 294
electrically conducting polypyrroles 35
energy absorption in failure of ceramic composite armours 174
environmental degradation of nylon 6 11
erosion / corrosion-resistant materials in brown coal mills 59
- failure
 of ceramic composite armours, role of energy absorption in 174
 of conveyor bend pulley 64
fluoride glasses, heavy metal 197
fractography of stress corrosion cracking for low alloy steels in high temperature water 54
fracture toughness
 of common electrical insulator porcelain 294
 of transformation-toughened TiN-ZrO₂ composites 101
- galvanization
 of silicon steels, formation of Fe-Si particles 225
 of Zn-Ni, source of dross in 73
 origin of dross in 69
glass, heavy metal fluoride 197
grain boundary fracture in molybdenum 161
grain-coarsening in titanium steels, effect of alloy nitride particle size distribution 139
grain-size distribution, effect on deformation of superplastic alloys 279
graphite / epoxy laminates 118
Grayson ruling engine, puzzling diffraction gratings 273
- heat treatment effects on stress corrosion cracking of low alloy steels 48
heavy metal fluoride glasses 197
high-density sintered tungsten alloys, corrosion of 266
high strength steels welded by electron beam and laser beam processes, solidification cracking in 254
- icosahedral quasicrystal, synthesis in $\text{Mg}_2\text{Cr}_2\text{Al}_{18}$ 228
impurity effects on grain boundary character in molybdenum 161
influence of draw ratio on irradiation effects in polyethylene tape 21

- interpenetrating polymer networks
 - block styrene-butadiene 26
 - polystyrene 26
- iron-silicon particles formed during silicon steel galvanization 225
- laminates, delamination damage in 118
- laser alloying of low-alloy steel with nickel and chromium 203
- load-bearing polymer, weathering of nylon 6 11
- low alloy steel
 - fractography of stress corrosion cracking 54
 - heat treatment effects on stress corrosion cracking 48
 - laser alloying with nickel and chromium 203
- magnetic alloys, corrosion behaviour of 43
- manufacture of metal powders 81
- mechanical properties of structural ceramics 237
- Melbourne ruling engines, metallurgical puzzle from 273
- metal powders, manufacture, use and characterization of 81
- molybdenum, grain boundary fracture in 161
- mosaics, produced by ruling engines 273
- network polymers, structure and properties 108
- new icosahedral quasicrystal, synthesis based on E phase ($\text{Mg}_3\text{Cr}_2\text{Al}_{18}$) 228
- nylon 6, environmental degradation 11
- oriented high density polyethylene, wide angle X-ray analysis of structure of 288
- origin of dross in galvanizing processes 69
- orthorhombic / tetragonal phase transition in $\text{YBa}_2\text{Cu}_3\text{O}_{7-x}$ 76
- particle size distribution, alloy nitride, effect on grain-coarsening 139
- permanent magnetic alloys, corrosion behaviour 43
- phase transition in $\text{YBa}_2\text{Cu}_3\text{O}_{7-x}$, d.c. conductivity in 76
- photodegradation of plastics 1
- plastics, degradable 1
- polyethylene, oriented high density, wide angle X-ray analysis of 288
- polymers
 - cross-linking of 108
 - electrical conduction in polypyrrole 35
 - influence of draw ratio on irradiation effects 21
 - morphology of interpenetrating polymer networks 26
 - network, structure and properties of 108
- polypyrrole, electrical conduction in 35
- polystyrene, interpenetrating polymer networks 26
- polythene tape, influence of draw ratio on irradiation effects 21
- porcelain, electrical insulator, fracture toughness of 294
- powder metallurgy, processes 81
- precipitate morphology, role of symmetry in 147
- pulley, conveyor bend, failure of 64
- quasicrystal, new icosahedral, synthesis in $\text{Mg}_3\text{Cr}_2\text{Al}_{18}$ 228
- γ -ray irradiation of oriented high density polyethylene 288
- ruling engine, Grayson, diffraction gratings produced by 273
- silica scavenging in Al_2O_3 / Y-TZP 303
- silicon steel
 - Fe-Si particles formed during galvanization of 225
 - identification of Fe-Si particles in galvanization 225
 - Zn-Ni coating 153
- solidification cracking in high strength steels welded by electron beam and laser beam processes 254
- stainless steel
 - effect of corrosion on 134
 - Zn-Ni coating of 153
- steady-state creep, work-hardening rates during 182
- steel
 - deformation and weld repair of 216
 - high strength, welded by electron beam and laser beam processes, solidification cracking in 254
 - low alloy, stress corrosion cracking of 48
- stress analysis of conveyor bend pulley 64
- stress change
 - for creep behaviour in aluminium alloys 187
 - for determination of work-hardening rates during steady-state creep 182
- stress corrosion cracking of low alloy steels 48
 - fractography of 54
- superplastic alloys, effect of grain-size distribution on deformation of 279
- surface alloying with nickel and chromium of low alloy steel 203
- surface irradiation, for measurement of corrosion 261
- surface loss, measured by thin layer activation 261
- symmetry, role in precipitate morphology 147
- synthesis of icosahedral quasicrystal 228
- thin layer activation for monitoring of corrosion 261
- TiN-ZrO₂ composites, fracture toughness of 101
- titanium steels, effect of alloy nitride particle size distribution on 139
- toughening mechanisms for ceramics 237
- transformation-toughened TiN-ZrO₂ composites, fracture toughness of 101
- tungsten alloys, corrosion of 266
- unlubricated sliding wear and wear maps 211
- use of metal powders 81
- wear maps and unlubricated sliding wear 211
- wear-resistant materials in brown coal mills 59
- weld repair and deformation of armour steel 216
- work-hardening rates during steady-state creep 182
- X-ray analysis, wide angle, for structure of oriented high density polyethylene 288
- Y₂O₃ and copper composites of stainless steel, effects on corrosion 134
- zirconia ceramics, scavenging of Al_2O_3 in 303
- Zn-Ni coating of silicon steel 153
- Zn-Ni galvanization, source of dross formation in 73
